

## 6th Grade Comprehensive Science

Those that attending TWMS and scheduled for **Advanced Science** please see the following information.

Science Fair will begin at the end of August it is important that over the summer in the months leading to it, that you should consider what kind of project you'd like to do. When looking for a project ideas it is important to realize that there are a lot of project ideas out there but some are not allowed. Please see the information below to help you get started on finding a project.

Otherwise have a fantastic rest of your summer and we look forward to the start of your 6th Grade Year!

1. Science Fair Projects **not allowed** due to health or safety concerns.
  1. Bacteria based projects
  2. Human or Animal based projects
2. When looking for a Science Fair project to do think about the following information
  1. What do you like doing?
  2. Is it able to be tested and have numerical data (Quantitative Data)?
  3. Follow this link (web URL below) for a checklist on some ideas. [Science fair ideas](#)
    - [tinyurl.com/twmssummerscience](http://tinyurl.com/twmssummerscience)
  4. Keep in mind a lot of projects have been done before so the trick is how to make your own or a spin on it. Science Buddies is an example of a website that is constantly used and due to students copying their projects it please refrain from using it. I am aware of a lot repeat projects that magically always come up with the same data.
